**Type of Inspection:** Compliance Evaluation Inspection (CEI)

**Facility Name:** Griffith Consumers

**Address/** 2510 Schuster Drive  
**Phone:** Cheverly, MD 20781

**EPA ID No:** MDD006919815

**Inspection Date:** 04/17/96

**Report Date:** 04/19/96

**Inspector:** Tom White, Public Health Engineer

\*\*\*\*\*

**I. Purpose:**

I visited the above facility on April 17th, 1996 to conduct a routine RCRA compliance evaluation. According to RCRIS, this facility is recorded as a Large Quantity Generator (LQG) of hazardous waste, and has never been inspected.

**II. Facility Contacts**

Mr. Randy Wayne, Safety Director

**III. Facility Description:**

The Griffith Consumers facility serves as a dispatch and business office as well as a maintenance facility for part of their fleet. Griffith supplies heating oil to a large number of clients in the Washington metropolitan area. Their fleet consists of fuel trucks, service vehicles and miscellaneous vehicles. A large portion of the facility consists of garage space for the repair and maintenance activities. Hazardous wastes generated at this location are derived solely from these garage activities, and are not related to fuel oil products.

**IV. Non-Hazardous Waste Streams:**

Griffith generates antifreeze, waste oil, spent sorbent materials, miscellaneous shop wastes and office wastes. These wastes are either recycled or otherwise disposed of properly.

#### **V. Hazardous Waste Streams:**

Griffith utilizes two parts washers which use petroleum naphtha and are serviced by Safety-Kleen. The spent solvent from these washers is periodically replaced under contract. In 1995 Griffith generated 189 gallons of D039, had a maximum of 25 gallons of waste at anyone time, and generated a maximum of 28 gallons during one calendar month. These quantities qualify Griffith as a Small Quantity Generator (SQG) of hazardous waste by Maryland standards. In addition to the parts washer fluids, relatively small amounts of brake washer cleaning fluids are generated and were included in these quantity determinations.

#### **VI. Record Keeping:**

Review of documentation maintained by Mr. Wayne indicates that manifests and annual reports are maintained dating back several years. Contingency plans, emergency procedures and personnel training documentation were not required by COMAR 26.13 as Griffith qualifies for a small quantity generator exemption.

#### **VII. Other Observations:**

Mr. Wayne expressed concern about the section of the annual report which deals with source reduction and recycling (form IC, Section VII, Waste Minimization Activity during 1995). In particular, he was concerned that he had taken such steps in the past but had reached a point where no further reduction was feasible or reasonable. I suggested he remain open to such opportunities in the future as they arise.

#### **VIII. Violations and Enforcement Actions:**

No violations were observed and no enforcement actions were taken.

Observer: Tom White Date: 04/19/96

Report of Observations

CASE # FI-96-04-1  
EPA ID #  
MDD006919815

Type of Inspection/Observation: Compliance Evaluation Inspection Date 04/17/96

Facility Name: Griffith Consumers - 2510 Schuster Dr. Chertsey, MD 20781 (301) 32

Remarks: Griffith Consumers, a fuel oil distribution company, operates an office and vehicle maintenance facility at this address. The facility is listed as a Large Quantity Generator (LQG) of hazardous wastes. I visited the facility and met with Mr. Randy Wayne, Safety Director. Mr. Wayne showed me around the facility. As a result, I observed two Safety-Kleen petroleum naptha pump/asph and one brake parts washer in operation. In 1995 Griffith generated 189 gal. D039, and had a maximum of 25 gal. on site generated at any one time, and 28 gal. in one calendar month. These quantities qualify Griffith as a Small Quantity Generator (SQG) by Maryland Standards (>220 lb/mo or at any one time). The facility appears to be in compliance with Code of MD Regulations 26.13 (COMAR) with respect to hazardous waste management.  
In addition Griffith generates several non-hazardous waste streams. These include waste oil, antifreeze, used sorbent material, filters, etc. The company contracts with Safety-Kleen for proper disposal of these materials. Mr. Wayne <sup>currently</sup> maintains hazardous waste records (manifests, annual reports, etc.) dating back to 1992.

TIME IN: 10:30 a.m.

ACKNOWLEDGEMENT OF NOTIFICATION  
OF HAZARDOUS WASTE ACTIVITY  
(VERIFICATION)

This is to acknowledge that you have filed a Notification of Hazardous Waste Activity for the installation located at the address shown in the box below to comply with Section 3010 of the Resource Conservation and Recovery Act (RCRA). Your EPA Identification Number for that installation appears in the box below. The EPA Identification Number must be included on all shipping manifests for transporting hazardous wastes; on all Annual Reports that generators of hazardous waste, and owners and operators of hazardous waste treatment, storage and disposal facilities must file with EPA; on all applications for a Federal Hazardous Waste Permit; and other hazardous waste management reports and documents required under Subtitle C of RCRA.

**INSTRUCTIONS:** If you received a preprint label, affix it in the space at left. If any of the information on the label is incorrect, draw a line through it and supply the correct information in the appropriate section below. If the label is complete and correct, leave Items I, II, and III below blank. If you did not receive a preprint label, complete all items. "Installation" means a single site where hazardous waste is generated, treated, stored and/or disposed of, or a transporter's principal place of business. Please refer to the INSTRUCTIONS FOR FILING NOTIFICATION before completing this form. The information requested herein is required by law (Section 3010 of the Resource Conservation and Recovery Act).

PLEASE PLACE LABEL IN THIS SPACE

**FOR OFFICIAL USE ONLY**

Ms. Shirely D. Bulkin  
U. S. Environmental Protection Agency  
6th and Walnut Streets  
Philadelphia, Penna. 19106

Dear Ms. Bulkin:

When we submitted a completed Notification of Hazardous Waste Activity for our facility at 2510 Schuster Drive, Cheverly, Maryland (EPA No. MDD 00 069 1981), an "X" was entered in the Treat/Store/Dispose box of the form as a precaution at the time of filing. Subsequent to the filing of Notifications, a review of this facility's operations and further clarification of some of the regulations indicates Treat/Store/Dispose activities are not conducted at this facility. As a result, it will not be necessary to submit Part A permit application.

We trust this information will assist your administration of the RCRA program.

Very truly yours,

W. J. Meighan

Re: Facility Name: Griffith-Consumers Company  
EPA I. D. Number: MDD 00 069 1981

Dear Mr. Meighan:

Region III of the Environmental Protection Agency (EPA) is currently reviewing the accuracy and completeness of information submitted under the Resource Conservation and Recovery Act (The Act) concerning hazardous waste management activity. EPA has received a Notification of Hazardous Waste Activity (EPA Form 8700-12) for the above facility which indicates that this facility treats, stores or disposes of hazardous waste.

To continue operating after November 19, 1980, all facilities which treat, store or dispose of hazardous waste must have submitted a Part A permit application (EPA Form 3510-1, 3) to EPA by that date. As of this date, EPA has not received a Part A permit application for this facility. If you have determined that this facility does not treat, store or dispose of hazardous waste, please send a letter to that effect within ten days of receipt of this letter. This request is being made pursuant to Section 3007 of the Act, 42 U.S.C. § 6927.

If you have any questions, please contact Joan Henry at the above address or call 215/597-8751.

Sincerely yours,

*Shirley D. Bulkin*

Subject: Compliance with RCRA Requirements  
ARCO Petroleum Products Company  
Marketing Department Facilities

Dear Mr. Allen:

On August 15, 1980 Notification of Hazardous Waste Activity forms were submitted for the Atlantic Richfield Company facilities listed in Attachment #1. As noted and explained in our transmittal letter, an "X" was entered in the Treat/Store/Dispose box of the forms as a precaution at the time of filing.

Subsequent to the filing of Notifications, a review of operations at these facilities and clarification of some of the regulations indicates Treat/Store/Dispose activities are not conducted at any of the referenced facilities. As a result, it was not necessary to submit a Part A permit application prior to November 19, 1980 to qualify for interim status for any of the facilities listed in Attachment #1.

We trust this information will assist your administration of the RCRA program.

Very truly yours,

B. S. Di Giovanni
